

## Pasunuri SaiGanesh

Frontend Developer • Software Developer

other • 2022 Pass out

### Work Experience

#### Testing @ WyreFlow, Aligarh

Oct 2024 - Nov 2024 (1 month) | Part-time

- I have trained on Manual Testing but unfortunately, they ended up this internship within 1 month.
- Gained knowledge on how to write test cases according to the requirement and performed Smoke testing, Sanity testing.
- While testing the application, we got defects and that we have reported to them effectively.
- Received appreciation from the team for actively participating in the calls.

Skills Developed: Manual testing, Quality Assurance (QA), Testing Methodology

### Projects

#### Crypto Page

- Built a responsive crypto landing page using HTML and CSS with a clean, modern UI.
- Developed a responsive crypto landing page using HTML and CSS with a hero section, navigation bar, and coin showcase, featuring clean UI and interactive design.
- Includes a navigation bar, hero section with call-to-action, and a coin list showcasing major cryptocurrencies with responsive design and hover effects.

Skills Developed: HTML, CSS, Javascript

#### AN EXAMINATION SYSTEM USING NATURAL LANGUAGE PROCESS

- Here this project might be useful in our daily as well as future.
- Here our aim is not to work on the technology that is already existing, rather some technology that is very rare. Here we talk of the descriptive online examination system.
- There is no Issues.

Skills Developed: HTML, CSS, Javascript, Python, Django, SQL

### Achievements/ Extracurricular Activities

- Participated in Java Workshop
- Hackerrank

### Tagline

As a passionate and driven Computer Science student, I am always eager to explore new ideas and technologies in the field. I thrive on solving complex problems and collaborating with others to develop innovative solutions. With a strong foundation in programming and a keen interest in continuous learning, I aim to leverage my skills to create meaningful and impactful contributions in the tech industry.

### Skills
